## Help with Rootkit problem please

Posted by nige.s - 2008/12/15 14:42

---

Managed to catch a virus through a bogus youtube link on facebook.

When I use Google search and click on the site I want, searchontop takes over and I get random advertising driven sites instead. I have downloaded free fixer and run a scan which I have attached. Could someone please try and help me?

Thanks Nige. [http://www.securitywonks.net/site/images/fbfiles/files/freefixer\\_log-c6f9c0dcb0528644c2f4a3f0e450d29a.txt](http://www.securitywonks.net/site/images/fbfiles/files/freefixer_log-c6f9c0dcb0528644c2f4a3f0e450d29a.txt)
